Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Seater with Crimp 1 1/4 Safety Instructions

Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed for safely seating bullets in cartridge cases, ensuring precision and accuracy. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the Seater is used only for its intended purpose as described in the product text.
- Always handle the Seater with care to avoid injury.
- Keep the Seater out of reach of children and vulnerable individuals.
- Regularly inspect the Seater for any signs of damage or wear. Do not use if damaged.
- Use only compatible accessories and spare parts as recommended in the manual.
- Report any unsafe product incidents or accidents to the relevant authorities immediately.
- Stay informed about recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the Seater.
- Ensure that you are in a wellventilated area while operating the Seater.
- Do not exceed the manufacturer's recommended specifications for bullet types and cartridge cases.
- Be cautious of potential pinch points when adjusting or replacing the seaterhead.
- Avoid distractions while using the Seater to maintain focus and prevent accidents.
- Follow all instructions regarding crimping to avoid improper seating of bullets.

Instructions for Installation and Usage

1. Installation:

- Ensure that the work area is clean and free from obstructions.
- Secure the Seater in a stable position on your reloading bench.
- Connect the Seater to your reloading press according to the manufacturer's instructions.
- If replacing the seaterhead, carefully unscrew the existing head and replace it with the desired type, ensuring a secure fit.

2. Usage:

- Prepare your cartridge cases and bullets as per your reloading procedure.
- Adjust the seating depth according to the specifications for the bullets you are using.
- Insert the bullet into the cartridge case and position it under the seater.
- Pull the lever on the reloading press to seat the bullet into the case. Ensure that the crimping feature is engaged if desired.
- Inspect the seated bullet for proper fit and crimping. Repeat the process for additional cartridges.

Disposal Instructions

- Dispose of the Seater and any associated materials in accordance with local regulations.
- Do not dispose of the Seater in regular household waste. Contact your local waste management facility for guidance on proper disposal methods.
- Ensure that any hazardous materials are handled and disposed of safely.

Contact Information for Further Support

For further assistance regarding the Seater with Crimp 1 1/4, please refer to the product manual or contact the manufacturer directly. Ensure that you have the product details ready to facilitate support.

Thank you for your attention to these safety instructions. We wish you a safe and successful reloading experience!
