Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 1 1/4

## Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed to provide you with a reliable and efficient way to seat bullets with or without crimping. To ensure your safety and the proper use of this product, please read and follow the guidelines outlined in this manual.

## General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions.
- Ensure that the work area is clean and free of any obstructions.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Report any unsafe conditions or product malfunctions to the appropriate authorities.

## Specific Safety Precautions for Use

- Use only compatible bullet types as specified by the manufacturer.
- Ensure that the seaterhead is securely attached before use.
- Avoid wearing loose clothing or jewelry that may get caught in the equipment.
- Always wear appropriate safety gear, such as eye protection, when using the product.
- Do not exceed the recommended torque settings when adjusting the seaterhead.
- If using a crimp, ensure that it is done evenly to avoid damaging the cartridge case.

## Instructions for Installation and Usage

### 1. Installation:

- Begin by selecting the appropriate seaterhead for your bullet type.
- Attach the seaterhead securely to the main body of the bullet seater.
- Ensure that all components are tightened according to the manufacturer's specifications.

### 2. Usage:

- Place the cartridge case into the bullet seater.
- Insert the bullet into the case, ensuring proper alignment.
- If crimping is desired, adjust the seater to apply the crimp evenly to the mouth of the cartridge case.
- Operate the bullet seater in a controlled manner, ensuring that you maintain focus and avoid distractions.
- After seating the bullet, inspect the cartridge to ensure it meets quality standards.

## Disposal Instructions

- Dispose of any used or damaged components in accordance with local regulations.
- Recycle materials whenever possible to minimize environmental impact.
- Do not dispose of the product in general waste if it contains hazardous materials.

## **Contact Information for Further Support**

For any questions or concerns regarding the Seater with Crimp 1 1/4, please refer to the manufacturer's contact information for assistance. Ensure that you have the product details on hand for a more efficient response.

By following these safety instructions, you can ensure a safe and effective experience with the Seater with Crimp 1 1/4. Always prioritize safety and consult the manual for any additional information or clarification.
