Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

NO IMAGE  
AVAILABLE

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 1 1/4

## Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed to help you seat bullets accurately and efficiently. To ensure your safety and the proper functioning of the product, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for any damage or wear before use.
- Do not use the product if it is damaged or malfunctioning.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the bullet seater is compatible with the bullets you are using.
- Always wear appropriate personal protective equipment, such as safety glasses and gloves, when using the product.
- Do not exceed the recommended pressure or load specifications when seating bullets.
- Be cautious of sharp edges and moving parts during operation.
- Ensure that your workspace is clean and free from clutter to avoid accidents.

## Instructions for Installation and Usage

### Installation

#### 1. Prepare Your Workspace

- Choose a clean, dry, and welllit area for installation.
- Gather all necessary tools and materials before starting.

#### 2. Attach the Seater Head

- Remove the existing seater head if applicable.
- Align the new seater head with the mounting area.
- Secure the seater head firmly in place, ensuring it is properly fitted.

#### 3. Set Up the Product

- Attach the bullet seater to your reloading press according to the press manufacturer's instructions.
- Adjust the seating depth as required for your specific bullet.

### Usage

#### 1. Loading Bullets

- Place the cartridge case in the appropriate position on the reloading press.
- Insert the bullet into the case mouth, ensuring it is seated straight.

## 2. Seating the Bullet

- Engage the reloading press to seat the bullet.
- Monitor the seating process closely to ensure proper alignment.

## 3. Crimping (Optional)

- If desired, adjust the product to crimp the mouth of the cartridge case after seating the bullet.
- Ensure the crimp is applied evenly to avoid damaging the cartridge.

## 4. Final Inspection

- Check each completed cartridge for proper seating and crimping.
- Discard any cartridges that do not meet safety standards.

## Disposal Instructions

- Dispose of any unused or damaged components in accordance with local waste disposal regulations.
- Do not dispose of the product in regular household waste.
- Consult local authorities for proper disposal methods of hazardous materials.

## Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the manufacturer's contact information found in the product manual or on the manufacturer's website. Ensure you have the product details ready for a more efficient response.

By following these safety instructions, you can ensure a safe and effective experience with your Seater with Crimp 1 1/4. Thank you for prioritizing safety in your reloading practices.
