Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 1 1/4

## Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed to provide precision and reliability in bullet seating. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product regularly for any signs of damage or wear.
- If you notice any defects or irregularities, discontinue use immediately and seek assistance.
- Report any unsafe products or incidents to the relevant authorities.
- Stay informed about product recalls and safety alerts via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that you are using the correct seater head for the bullet type to improve accuracy and concentricity.
- Avoid placing fingers or hands near the moving parts during operation.
- Use protective eyewear to shield your eyes from debris or accidental discharge.
- Do not exceed the recommended pressure limits when seating bullets.
- Ensure that the workspace is clean and free from obstructions to prevent accidents.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the workstation is stable and welllit.
- Verify that all components are present and undamaged before installation.
- Attach the seater to your reloading press according to the manufacturer's specifications.
- Secure the seater head firmly in place, ensuring it is compatible with the bullets you intend to use.

### 2. Usage:

- Adjust the seating depth according to the specifications of the bullet being used.
- If using the crimp feature, ensure the cartridge case is correctly positioned.
- Begin seating the bullet slowly, monitoring for any resistance or irregularities.
- After seating, inspect the cartridge to ensure proper depth and crimping.

## Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Contact local waste management authorities for guidance on proper disposal methods.

## Contact Information for Further Support

For any inquiries or further assistance, please refer to the manufacturer's contact information provided with the

product packaging.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities.
