Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 1 1/4

Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed to help you safely and effectively seat bullets with precision. It is important to follow the safety guidelines outlined in this document to ensure safe usage and compliance with EU regulations.

General Safety Guidelines

- Always read and understand the instructions before using the product.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose.
- Regularly inspect the product for any signs of wear or damage.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.
- Ensure that all safety measures are in place when using the product.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when using the Seater with Crimp.
- Ensure that the work area is clean, dry, and welllit.
- Do not exceed the recommended specifications for the bullet and cartridge case.
- Avoid using the product if you are under the influence of drugs or alcohol.
- Never attempt to modify or alter the product in any way.
- Follow all local regulations regarding the use of ammunition and reloading equipment.

Instructions for Installation and Usage

1. Installation:

- Ensure that your workbench or reloading station is stable and secure.
- Attach the Seater with Crimp to the reloading press according to the manufacturer's instructions.
- Make sure the seaterhead is properly secured and aligned.

2. Usage:

- Before seating the bullet, ensure that the cartridge case is clean and free of debris.
- Adjust the depth of the seating according to your specifications.
- Insert the bullet into the cartridge case and position it under the seaterhead.
- Slowly and steadily operate the reloading press to seat the bullet.
- If crimping is required, adjust the crimping settings as necessary.

3. PostUsage:

- After use, clean the Seater with Crimp to remove any residue.
- Store the product in a dry and secure location.

Disposal Instructions

- Dispose of any used cartridges and components in accordance with local regulations.
- Do not throw the product in regular household waste.

- If the product is no longer usable, check with local authorities for proper disposal methods.

Contact Information for Further Support

For additional assistance, please refer to the product manual or contact the manufacturer directly. Ensure you have the product details ready for a more efficient inquiry.

By following these guidelines, you will ensure a safer experience while using the Seater with Crimp 1 1/4. Always prioritize safety and compliance with regulations. Thank you for your attention to these important safety instructions.
