

# Bench-Rest-Seater 1 1/4 - Bench-Rest-Seater 6mm Dasher

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of "bullet runout", there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# BenchRestSeater Safety Instruction Guide

## Introduction

Thank you for choosing the BenchRestSeater 1 1/4 and 6mm Dasher. This product is designed for the precise seating of match bullets, ensuring optimal performance and accuracy. To ensure your safety and the longevity of the product, please follow these safety instructions carefully.

## General Safety Guidelines

- Always read and understand the user manual before using the BenchRestSeater.
- Ensure that the product is used only for its intended purpose as specified.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for any signs of damage before each use. Do not use if damaged.
- Report any unsafe conditions or accidents to the relevant authorities.
- Stay informed about product recalls through the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the workspace is clean and free from clutter to prevent accidents.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the seater.
- Use the correct seater head for the specific bullet type to enhance concentricity and performance.
- Do not exceed the recommended thread specifications while attaching the seater to the press.
- Avoid overtightening any components as this may lead to damage or malfunction.
- Be cautious of any sharp edges on the product to prevent cuts or injuries.
- Always follow proper handling procedures to avoid accidents during the seating operation.

## Instructions for Installation and Usage

### • Installation Steps:

1. Make sure the work area is clean and welllit.
2. Select the appropriate seater head for your bullet type.
3. Attach the seater head securely to the seater body using the specified thread size (1 1/4).
4. Ensure that the guide sleeve is properly aligned with the cartridge chamber.

### • Usage Steps:

1. Place the cartridge case into the guide sleeve.
2. Insert the bullet into the seater head.
3. Slowly and steadily push the seater down to seat the bullet into the cartridge case.
4. Check the bullet for proper seating and concentricity after each operation.
5. If necessary, adjust the seater head and repeat the process for optimal results.

## Disposal Instructions

- Dispose of the product in accordance with local regulations and waste management guidelines.
- Avoid disposing of the product in general household waste to minimize environmental impact.
- If applicable, remove any nonrecyclable components before disposal.

## **Contact Information for Further Support**

For any inquiries regarding safety or product support, please refer to the contact information provided in the product manual or packaging.

By following these safety instructions, you can ensure a safe and effective experience with your BenchRestSeater. Thank you for your attention to safety and for choosing our product.
