

Bench-Rest-Seater 1 1/4 - Bench-Rest-Seater 6,5x68 R

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

BenchRestSeater 1 1/4 Safety Instruction Guide

Introduction

Thank you for choosing the BenchRestSeater 1 1/4. This product is designed for precision in seating match bullets and ensuring optimal bullet runout. To ensure your safety and the proper use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that the BenchRestSeater is used only for its intended purpose.
- Always inspect the product before use for any signs of damage or wear. Do not use if damaged.
- Keep the product out of reach of children and other vulnerable individuals.
- Use the product in a wellventilated area to avoid inhaling any particles or fumes.
- Wear appropriate protective gear, such as safety glasses and gloves, when using the seater.
- Avoid distractions while using the product to maintain focus and control.

Specific Safety Precautions for Use

- **Thread Safety:** Ensure the thread size (1 1/4) is compatible with your equipment to avoid improper fitting.
- **Bullet Handling:** Always handle bullets with care. Follow the manufacturer's guidelines for bullet specifications to ensure safe seating.
- **SeaterHead Replacement:** Use only compatible seaterheads as specified in the manual. Improper heads may affect performance and safety.
- **Avoid OverPressure:** Do not apply excessive force when seating bullets, as this can lead to dangerous situations.
- **Cleaning:** Regularly clean the BenchRestSeater to prevent buildup that may affect its performance.

Instructions for Installation and Usage

1. Installation:

- Ensure the workspace is clean and free of obstructions.
- Attach the BenchRestSeater to your reloading press securely, ensuring the thread (1 1/4) is properly aligned.
- Check that the seaterhead is properly installed and secured.

2. Usage:

- Select the appropriate seaterhead for the bullet you are using.
- Place the cartridge case into the BenchRestSeater.
- Insert the bullet into the cartridge case.
- Gently lower the handle to seat the bullet into the cartridge case. Do not apply excessive force.
- Inspect the seated bullet for proper alignment and concentricity.
- Remove the completed cartridge and repeat the process for additional rounds.

Disposal Instructions

- Dispose of any damaged or unusable parts in accordance with local regulations.
- Do not dispose of the BenchRestSeater or its components in regular household waste.
- Check for local recycling programs that accept metal and plastic components.

Contact Information for Further Support

For any inquiries or concerns regarding the BenchRestSeater, please consult the product manual or reach out to your retailer for assistance. It is advisable to check for any safety recalls or updates on the EU Safety Gate platform.

By following these safety instructions, you can ensure the safe and effective use of the BenchRestSeater 1 1/4. Thank you for prioritizing safety and precision in your reloading activities.
