

# Bench-Rest-Seater 1 1/4 - Bench-Rest-Seater 8x64 S

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# BenchRestSeater 1 1/4 Safety Instructions

## Introduction

Thank you for choosing the BenchRestSeater 1 1/4. This product is designed for precision seating of match bullets, ensuring optimal performance and accuracy. It is important to follow the safety guidelines outlined in this manual to ensure safe and effective use of the product.

## General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure that the BenchRestSeater is used in a wellventilated area.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for any damage before use. Do not use if damaged.
- Use the product only for its intended purpose as described in this manual.
- Wear appropriate safety gear, such as eye protection, when using the BenchRestSeater.
- Be aware of your surroundings and ensure that others are at a safe distance while using the product.

## Specific Safety Precautions for Use

- Ensure that the cartridge case is properly aligned in the guide sleeve before seating the bullet.
- Do not force the bullet into the cartridge case; use gentle pressure to avoid damaging the bullet or cartridge.
- Always use the correct seater head for the bullet type to improve concentricity and reduce the risk of accidents.
- Avoid using the product in wet or humid conditions, as this may affect its performance and safety.
- Store the BenchRestSeater in a dry place when not in use to prevent corrosion or damage.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the work surface is stable and secure.
- Attach the BenchRestSeater to the work surface using appropriate clamps or screws.
- Select the correct seater head for your specific bullet type and attach it to the seaterhead mechanism.

### 2. Usage:

- Place the cartridge case into the guide sleeve, ensuring it is seated properly.
- Insert the bullet into the cartridge case.
- Slowly and gently lower the seaterhead until it contacts the bullet.
- Apply steady pressure to seat the bullet into the cartridge case. Do not rush this process.
- Once the bullet is seated, remove the cartridge case from the guide sleeve and inspect for proper seating.

## Disposal Instructions

- Dispose of any damaged or unusable parts in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of the product in household waste. Check with local authorities for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the BenchRestSeater, please refer to the product manual for contact information for customer support.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience with the BenchRestSeater 1 1/4. Always prioritize safety and refer to this manual whenever you have questions or concerns. Thank you for your attention to these guidelines, and enjoy your precision seating experience.
