

# Bench-Rest-Seater 1 1/4 - Bench-Rest-Seater 338 RCM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of "bullet runout", there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# BenchRestSeater 1 1/4 Safety Instruction Guide

## Introduction

Thank you for choosing the BenchRestSeater 1 1/4. This product is designed for the precise seating of match bullets, ensuring optimal performance and accuracy. To ensure your safety and the effective use of this product, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always use the BenchRestSeater in accordance with the manufacturer's instructions.
- Ensure that the work area is clean, dry, and welllit.
- Keep the product out of reach of children and vulnerable individuals.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when operating the seater.
- Regularly inspect the seater for wear and damage. Do not use if any parts are damaged.
- Store the product in a safe location when not in use, preferably in a protective case.

## Specific Safety Precautions for Use

- Avoid using the seater with incompatible bullet types or sizes, as this may lead to improper seating and potential hazards.
- Ensure that the cartridge case is properly aligned before seating the bullet to prevent misfires or accidents.
- Do not exceed the recommended torque settings when using the seater to avoid damaging the equipment or causing injury.
- Never attempt to modify or alter the BenchRestSeater. Any modifications may compromise safety and performance.
- If you experience any unusual resistance while seating, stop immediately and investigate the cause before proceeding.

## Instructions for Installation and Usage

### 1. Unpacking the Product

- Carefully remove the BenchRestSeater from its packaging.
- Inspect all components to ensure nothing is damaged or missing.

### 2. Setting Up the Seater

- Place the seater on a stable and flat surface.
- Ensure that the guide sleeve is correctly installed and secured.

### 3. Selecting the Correct Seater Head

- Choose the appropriate seater head based on the bullet type you are using.
- Ensure that the seater head is properly attached to the main body of the seater.

### 4. Seating the Bullet

- Insert the cartridge case into the guide sleeve.
- Carefully place the bullet into the cartridge case.
- Slowly and steadily apply downward pressure on the seater head to seat the bullet.
- Monitor for proper alignment and concentricity during the process.

## 5. PostUsage Care

- After use, clean the seater to remove any residue or debris.
- Store the seater in a dry and secure location to prevent damage.

## Disposal Instructions

- Dispose of the BenchRestSeater and its components in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Check with local waste management authorities for proper disposal methods.

## Contact Information for Further Support

For any questions or concerns regarding the BenchRestSeater, please refer to the product manual or contact the manufacturer for assistance. Ensure you have your product details handy for a quicker response.

## Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your BenchRestSeater 1 1/4. Always prioritize safety and adhere to all guidelines to prevent accidents and ensure optimal performance. Thank you for your attention to these important safety measures.
