

Seater with Crimp 1 1/2 - Seater with Crimp 460 Steyr

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 1 1/2 Seater with Crimp 460 Steyr

Introduction

Thank you for choosing the Seater with Crimp 1 1/2 Seater with Crimp 460 Steyr. This product is designed to provide accurate bullet seating and crimping for your reloading needs. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions.
- Keep this product out of reach of children and vulnerable individuals.
- Inspect the product for any damage or wear before use. Do not use if damaged.
- Ensure a safe working environment, free from distractions and hazards.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling this product.
- Report any unsafe products or accidents to the relevant authorities.
- Check regularly for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

• Potential Hazards:

- Risk of injury from sharp components.
- Risk of improper bullet seating leading to misfires or accidents.
- Risk of damage to the cartridge case if crimping is not performed correctly.

• Avoiding Hazards:

- Always ensure the bullet is properly aligned with the seating die before applying pressure.
- Do not exceed the recommended pressure when seating bullets.
- Use the correct seaterhead for the bullet type to improve concentricity and reduce risk.
- Be cautious when replacing the seaterhead; ensure the machine is powered off and disconnected from any power source.

• Age or Audience Specific Warnings:

- This product is intended for use by adults or individuals with appropriate training in reloading and ammunition handling.
- Keep out of reach of children and ensure that they do not have access to reloading equipment.

Instructions for Installation and Usage

• Installation:

1. Ensure the reloading press is securely mounted and stable.
2. Select the appropriate seaterhead for your bullet type.
3. Install the seaterhead by following the manufacturer's instructions.
4. Adjust the seating depth according to your specifications.

• Usage:

1. Place a cartridge case into the reloading press.
2. Insert the bullet into the case mouth.
3. Activate the press to seat the bullet. Ensure it is guided correctly by the bushing.
4. If crimping is desired, adjust the crimping feature as per the instructions provided.
5. Inspect the completed cartridge for proper seating and crimping.

- **Maintenance:**

- Regularly clean the seaterhead and other components to prevent residue buildup.
- Store the product in a dry place to prevent corrosion and damage.

Disposal Instructions

- Dispose of any damaged or worn components according to local regulations.
- Do not dispose of the product in household waste. Instead, check for local recycling programs for metal and plastic components.
- Ensure that all materials are disposed of in a manner that does not pose a risk to the environment.

Contact Information for Further Support

For further support or inquiries regarding safety and usage, please refer to the manufacturer's website or contact their customer support. Ensure that you have the product details available for a quicker response.

By following these safety instructions, you can ensure a safer and more effective experience with your Seater with Crimp 1 1/2 Seater with Crimp 460 Steyr. Thank you for prioritizing safety in your reloading practices.
