

Gear Dehumidifier - Gun Safe Dehumidifier Two Pack

Keep It Dry. Keep It Ready.

Get more for less with this 2-pack of Gear Dehumidifiers a better value per unit compared to the single pack.

The Gear Dehumidifier is your compact and reliable solution for protecting firearms, ammunition, and gear from moisture damage. Designed to prevent rust, corrosion, and mold, it excels at keeping firearms in safes dry but is also perfect for ammo cans, vehicles, and gear bags. Its reusable silica gel technology ensures long-term use, while the color-changing wing indicator makes recharging simple – turning pink when moisture absorption is full and ready to be recharged.

Key Benefits:

Reusable: Long-lasting performance with easy recharge.

Moisture Protection: Keeps gear dry and protected from rust and mold.

Filter Fabric: Durable design for consistent moisture absorption.

Recharge Indicator: Clear visual signal for hassle-free maintenance.

Compact, durable, and versatile, the Gear Dehumidifier is built for tactical environments and everyday storage needs.

Gear Dehumidifier Gun Safe Dehumidifier Two Pack Safety Instruction Guide

Introduction

Thank you for choosing the Gear Dehumidifier Gun Safe Dehumidifier Two Pack. This product is designed to protect your firearms, ammunition, and gear from moisture damage. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always use the Gear Dehumidifier according to the manufacturer's instructions.
- Keep the dehumidifier out of reach of children to prevent accidental ingestion of silica gel.
- Regularly check the recharge indicator to maintain optimal performance.
- Dispose of the product properly according to local regulations.

Specific Safety Precautions for Use

- Do not expose the dehumidifier to water or any liquid substances.
- Avoid placing the dehumidifier in areas with high humidity levels, such as near open windows or doors.
- Do not attempt to disassemble the dehumidifier.
- If the dehumidifier becomes damaged or shows signs of wear, discontinue use immediately.

Instructions for Installation and Usage

1. Placement:

- Place the Gear Dehumidifier in a dry, enclosed space such as a gun safe, ammo can, or gear bag.
- Ensure that the dehumidifier is not obstructed by other items to allow for maximum air circulation.

2. Recharge:

- Monitor the colorchanging wing indicator. The indicator will turn pink when moisture absorption is full.
- To recharge, place the dehumidifier in an oven at a low temperature (approximately 60-70°C) for 12 hours, or until the indicator turns back to its original color.
- Allow the dehumidifier to cool before handling.

3. Maintenance:

- Regularly inspect the dehumidifier for any signs of damage or wear.
- Replace the dehumidifier if it no longer functions effectively after recharging.

Disposal Instructions

- Dispose of the Gear Dehumidifier in accordance with local waste management regulations.
- Do not throw the dehumidifier in regular household waste.
- Check for any local recycling programs that accept silica gel products.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Gear Dehumidifier, please contact the manufacturer's customer service or consult the product packaging for additional support resources.

By following these guidelines, you can ensure the safe and effective use of your Gear Dehumidifier Gun Safe Dehumidifier Two Pack. Thank you for your attention to these important safety instructions.
