

# Gear Dehumidifier Two-Pack

[Shooting Accessories](#) > [Gun Storage](#)

**Keep It Dry. Keep It Ready.**

**Get more for less with this 2-pack of Gear Dehumidifiers** - a better value per unit compared to the single pack.

The **Gear Dehumidifier** is your compact and reliable solution for protecting firearms, ammunition, and gear from moisture damage. Designed to prevent rust, corrosion, and mold, it excels at keeping firearms in safes dry but is also perfect for ammo cans, vehicles, and gear bags. Its reusable silica gel technology ensures long-term use, while the color-changing wing indicator makes recharging simple turning pink when moisture absorption is full and ready to be recharged.

# Gear Dehumidifier TwoPack Safety Instruction Guide

## Introduction

Thank you for choosing the Gear Dehumidifier TwoPack. This product is designed to protect your firearms, ammunition, and gear from moisture damage. It is crucial to follow the safety guidelines provided in this manual to ensure safe use and maximum effectiveness of the Gear Dehumidifier.

## General Safety Guidelines

- **Product Safety:** Ensure safe use of the Gear Dehumidifier by following all instructions and warnings provided in this guide.
- **Enhanced Recalls:** Stay informed about any product recalls or safety alerts. Regularly check the EU's Safety Gate platform for updates.
- **Online Shopping:** When purchasing online, ensure that the seller adheres to safety requirements.
- **Special Consumer Focus:** This product is not intended for use by children. Keep out of reach of minors.
- **EU Contact Point:** For any safety inquiries, please refer to the manufacturer's contact information provided with your product.
- **Rapid Alerts:** Be aware that updates on unsafe products will be communicated through the Safety Gate system.

## Specific Safety Precautions for Use

- **Do not expose** the Gear Dehumidifier to direct sunlight or extreme heat sources.
- **Avoid submerging** the dehumidifier in water or any other liquids.
- **Do not use** the dehumidifier in environments where it may be damaged by physical impact or heavy weights.
- **Check the recharge indicator** regularly to ensure optimal performance. Recharge when the indicator turns pink.
- **Store** the dehumidifier in a dry place when not in use.

## Instructions for Installation and Usage

### 1. Placement:

- Place the Gear Dehumidifier in a dry area where it can effectively absorb moisture.
- Ideal locations include gun safes, ammo cans, vehicles, and gear bags.

### 2. Recharging:

- Monitor the colorchanging wing indicator. When it turns pink, it indicates that moisture absorption is full.
- To recharge, place the dehumidifier in a wellventilated area or an oven at a low temperature (not exceeding 60°C or 140°F) for 12 hours.
- Allow the dehumidifier to cool before placing it back in its designated area.

### 3. Maintenance:

- Regularly inspect the dehumidifier for any signs of damage or wear.
- Clean the exterior with a damp cloth as needed.

## **Disposal Instructions**

- Dispose of the Gear Dehumidifier in accordance with local regulations regarding electronic waste.
- Do not dispose of the dehumidifier in regular household waste.
- If the dehumidifier is damaged or no longer functional, contact your local waste management authority for proper disposal methods.

## **Contact Information for Further Support**

For further assistance or inquiries regarding the Gear Dehumidifier, please refer to the manufacturer's contact information included with your product.

By following these safety instructions, you can ensure the effective and safe use of your Gear Dehumidifier. Thank you for prioritizing safety and protecting your valuable gear.
