If you're building a match rifle and want to skip the guesswork, the MDT LSS GEN3 Competition Kit is your solution. It takes the most modular rifle chassis system on the market and tunes it for one thing: winning competitions.

No part picking. No mismatched accessories. Just a rock-solid, competition-ready rifle foundation—straight out of the box. Every component in this kit is hand-selected to give you the edge in PRS, NRL, and precision rifle matches. It's not just modular—it's optimized.

The flat, wide Competition Forend with an integrated ARCA rail makes running barricades automatic. Lock in your tripod, clamp your bipod, and go. This isn't a compromise. You get the same rock-solid fitment and zero-retention that the GEN3 is known for—with competition-grade parts pre-installed.

Already a beast, yet still fully modular. Swap the grip. Switch the stock. Add weights, bridges, or accessories. Make it yours.
