

# ClayCopter 110mm Target 50 Pack Tube

[Shooting Accessories](#) > [Targets & Accessories](#) > [Throwers](#)

When the clay pigeon was invented in 1880, it replaced glass balls and live birds as the standard for shotgun practice. In the 150 years since, little has changed—until now. The Caldwell ClayCopter™ Targets bring a revolutionary twist to aerial shooting.

Crafted from eco-friendly, Green Leaf Tested materials, these discs are lighter, more durable, and easier to transport than traditional clay targets. Their Hi-Viz orange color ensures excellent visibility in flight, while their design makes them more resistant to breaking before launch.

Mounted on the Caldwell ClayCopter™ launcher, the discs spin up to 15,000 RPM and fly out to 100 yards. The innovative blade design sends them dancing unpredictably through the air, moving in 360 degrees of motion—mimicking the erratic flight of live birds and creating an exciting, challenging shooting experience.

# Safety Instruction Guide for ClayCopter 110mm Target 50 Pack Tube

## Introduction

Thank you for choosing the ClayCopter 110mm Target 50 Pack Tube. This product is designed to enhance your shooting experience while ensuring safety and compliance with EU regulations. Please read this safety instruction guide carefully before use to ensure safe handling, installation, and disposal of the product.

## General Safety Guidelines

- Ensure the product is used only by individuals who are familiar with shooting sports and have received proper training.
- Always use the ClayCopter targets in a safe and controlled environment, away from populated areas.
- Keep the targets out of reach of children and pets when not in use.
- Inspect the targets for any damage before use. Do not use damaged targets.
- Follow all local laws and regulations regarding the use of shooting targets and firearms.
- In case of any accidents or unsafe product incidents, report them to the appropriate authorities.

## Specific Safety Precautions for Use

- Wear appropriate eye and ear protection when shooting.
- Ensure that the shooting area is clear of bystanders and that a safe backstop is in place.
- Do not attempt to modify the targets or the launcher in any way.
- Do not use the targets if they show signs of deterioration or damage.
- Be aware of your surroundings and only shoot when it is safe to do so.
- Use the targets only with the Caldwell ClayCopter launcher for optimal performance and safety.

## Instructions for Installation and Usage

### 1. Installation of the ClayCopter Launcher:

- Place the Caldwell ClayCopter launcher on a stable, flat surface.
- Ensure that the launcher is securely positioned and will not tip over during use.
- Follow the manufacturer's instructions for connecting any necessary components.

### 2. Loading the Targets:

- Carefully remove a target from the tube.
- Place the target onto the launcher according to the instructions provided with the product.
- Ensure that the target is seated properly to avoid misfires.

### 3. Launching the Targets:

- Stand at a safe distance from the launcher, ensuring that no one is in the line of fire.
- Activate the launcher as per the manufacturer's instructions.
- Observe the flight path of the targets and be prepared to shoot at them.

### 4. PostUse Care:

- After use, ensure that all targets have been launched or disposed of properly.
- Clean the area of any debris from broken targets.
- Store the remaining targets in a cool, dry place away from direct sunlight.

## **Disposal Instructions**

- Dispose of broken or unused targets in accordance with local waste disposal regulations.
- Do not incinerate the targets as they may release harmful substances when burned.
- If possible, recycle any components made from recyclable materials.

## **Contact Information for Further Support**

For any inquiries or further information regarding the safety and use of the ClayCopter targets, please refer to the official website or contact the manufacturer directly.

Thank you for your attention to these safety guidelines. Enjoy your shooting experience with the ClayCopter targets responsibly!
