

Costa Henry Lok Rail Accessories Modular Rail System - Costa Henry M-LOK Handguard Rail System | Modular

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

The Costa Ludus/Ranger Point Handguard Modular Rail System is designed to offer bolt action shooters exceptional flexibility in terms of setup and cost, while maintaining the ease of handling and accuracy we value in these fine firearms.

To accomplish all of these goals, we divided the top Picatinny rail into three separate sections (a receiver rail and two Gator rails that attach to the top of the handguard). The handguard can be used with all three Picatinny top rails, one, none or any combination of two. It's worth noting that installing one or more Gator rails can make your Henry 45-70 M-LOK Handguard even more powerful. Watch this video to see all the different ways you can set it up.

To accommodate a range of manufacturing tolerances in the gas rifles, we have equipped the entire handguard/M-LOK rail system with adjustable fits. We also deliberately avoided using a continuous top M-LOK rail to mitigate the effects of manufacturing tolerances on accuracy. Our experience as custom lever action rifle builders has taught us that accuracy generally decreases when you connect the receiver to the barrel with a continuous rail. For the same reason, we strongly advise against 'bridging' the receiver rail with a Gator rail with a single sight.

The Costa/RPP Handguard + Rail system is adjustable in three ways:

- Laterally on the receiver connection - via the angled set screws - Laterally on the mounting spigot - via the vertical adjustment screws and the spigot itself. - Vertically on each leg of the 'Gator rails'.

M-LOK Rail System Features:

Extremely robust for tough applications. Installed system can support over one hundred pounds and withstand the weight of a full grown man. Modular flexibility allows mounting of any style of optic or combination of aiming options. 3 rails can be used in series or as a combination or individually. Handguard 'Gator Rails' can be rotated 180 degrees to achieve the perfect eye relief with red dot or LER scopes. Unused rails can be removed to reduce weight or achieve lower mounting heights. Includes M-LOK accessory slots, QD mounts and a threaded hole for a traditional sling stud for maximum versatility. Unique, aggressive look and excellent grip with or without hand stop. The split three-rail system decouples the two front rails from the receiver and maintains optimum accuracy.

Attributes

- Name: [Costa Henry M-LOK Handguard Rail System | Modular](#)
- Manufacturer: [RANGER POINT](#)
- Product no.: EU2014709
- Mfr. No.: 8000
- Weapon type: Henry
- Delivery weight: 3.18kg
- Shipping height: 101.6mm
- Shipping width: 101.6mm
- Shipping length: 336.55mm
- UPC: 850068664597

Safety Instruction Guide for Costa Henry Lok Rail Accessories Modular Rail System

Introduction

Thank you for choosing the Costa Henry Lok Rail Accessories Modular Rail System. This guide provides important safety information and instructions to ensure the safe and effective use of your product. Please read this guide carefully before installation and use.

General Safety Guidelines

- Always ensure the product is used in accordance with the manufacturer's instructions.
- Inspect the product for any damage or defects before use.
- Keep the product out of reach of children and vulnerable individuals who may not understand its use.
- Report any unsafe products or accidents to the appropriate authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Improper installation may lead to product failure.
 - Inadequate handling can cause injury.
 - Ensure that all components are securely attached before use.
- **Avoiding Hazards:**
 - Always follow the installation instructions carefully.
 - Use appropriate tools and equipment during installation.
 - Avoid using the product in adverse weather conditions.
 - Never exceed the weight limits specified for the rail system.
- **Age or Audience Specific Warnings:**
 - This product is intended for adult users only. Keep out of reach of children.

Instructions for Installation and Usage

- **Installation Steps:**
 1. **Preparation:**
 - Gather all necessary tools (e.g., screwdriver, wrench).
 - Ensure the workspace is clean and free of obstructions.
 2. **Attaching the Handguard:**
 - Align the handguard with the receiver.
 - Securely fasten the handguard using the provided screws.
 3. **Installing the Picatinny Rails:**
 - Choose the desired configuration of the Picatinny rails.
 - Attach the Gator rails to the top of the handguard as needed.
 - Ensure all connections are tight and secure.
 4. **Adjusting the System:**
 - Use the adjustable fits to accommodate any manufacturing tolerances.
 - Adjust the lateral and vertical settings as necessary for optimal performance.
- **Usage Guidelines:**
 - Ensure all accessories are properly mounted before use.
 - Regularly check the tightness of all components during use.
 - Use the handguard and rail system only for its intended purpose.

Disposal Instructions

- Follow local regulations for disposal of the product and its components.
- Do not dispose of the product in general household waste.
- If the product is damaged or no longer in use, consider recycling options where available.

Contact Information for Further Support

For any questions or concerns regarding the Costa Henry Lok Rail Accessories Modular Rail System, please refer to the manufacturer's website or contact your local distributor for assistance.

Thank you for your attention to these safety instructions. Enjoy your product responsibly!
