RPP Flyweight Loading Gate for Marlin 336 Rifles – 7075-T6 Aluminum

Compatibility: Fits Marlin 336 models chambered in .30-30 Win, .35 Rem, .444 Marlin, .338, and .308.

Material and Construction: Precision CNC-machined from premium 7075-T6 aluminum, the strongest aluminum alloy available. Hard-anodized for extreme durability and a surface hardness that surpasses hardened steel.

Weight and Ergonomics: Ultra-light design reduces spring tension by up to 70%, allowing smooth and reliable loading—requiring only 0.7 kg (1.5 lbs) of force instead of the typical over 2 kg with standard loading gates. The optimized geometry provides more room for cartridges and makes loading easier, especially with large calibers like .444 Marlin.

Easy Installation: Ready to install with no fitting required; installation takes approximately 10–15 minutes.

# Safety Instructions for RPP Flyweight Loading Gate for Marlin 336 Rifles

## Introduction

Thank you for choosing the RPP Flyweight Loading Gate for Marlin 336 Rifles. This guide provides essential safety information, installation instructions, and usage tips to ensure your product operates safely and effectively. Please read this document carefully before use.

## General Safety Guidelines

- Ensure the loading gate is compatible with your specific Marlin 336 model.
- Always handle firearms responsibly and in accordance with local laws and regulations.
- Keep the loading gate and all firearm accessories out of reach of children and unauthorized users.
- Regularly inspect the loading gate for signs of wear or damage before each use.
- Report any unsafe conditions or incidents to the appropriate authorities immediately.
- Stay informed about product recalls and safety updates through the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Always ensure your firearm is unloaded before installing or modifying any components.
- Do not exceed the recommended force of 0.7 kg (1.5 lbs) when loading cartridges.
- Avoid using the loading gate with incompatible cartridges to prevent malfunctions.
- Be cautious when handling ammunition and follow all safety protocols for ammunition storage and handling.
- If you experience any difficulties during loading, cease use and consult a professional gunsmith.

## Instructions for Installation and Usage

### Installation Steps

1. Ensure your firearm is completely unloaded and pointed in a safe direction.
2. Remove the existing loading gate from your Marlin 336 rifle.
3. Align the RPP Flyweight Loading Gate with the mounting points on your rifle.
4. Secure the loading gate in place using the provided hardware.
5. Verify that the loading gate operates smoothly before using the rifle.

### Usage Instructions

- Load cartridges gently and avoid excessive force.
- Monitor the loading process for any unusual resistance or sounds.
- After loading, ensure the firearm is in a safe condition before handling or firing.

## Disposal Instructions

- Dispose of any packaging materials in accordance with local waste management regulations.
- If the loading gate becomes damaged or is no longer usable, dispose of it responsibly, ensuring it does not pose a hazard to others.

## Contact Information for Further Support

For any questions or concerns regarding the RPP Flyweight Loading Gate, please consult the manufacturer's website or customer support resources.

Thank you for your attention to these safety guidelines. Your safety and the safety of others depend on responsible firearm handling and adherence to these instructions.
