RPP Flyweight Loading Gate for Marlin 336 - 7075-T6 Aluminum

Ultra-light. Extremely durable. Noticeably faster. The RPP Flyweight Loading Gate is the premium upgrade for Marlin 336 shooters seeking maximum speed, reliability, and comfort. Crafted from the strongest available aluminum (7075-T6) and hard-anodized for a surface harder than hardened steel.

## Compatibility

Fits all Marlin 336 models in the following calibers: .30-30 Win · .35 Rem · .444 Marlin · .338 · .308

## High-End Material and Construction

CNC-machined from 7075-T6 aluminum - up to twice as strong as standard aluminum

Hard-anodized for extreme wear resistance

Precision-engineered for a perfect fit, no extra fitting required

## Flyweight Ergonomics and Improved Loading

Up to 70% less force required for loading

Requires only 0.7 kg (1.5 lbs) instead of over 2 kg with standard gates

Significantly more room for cartridges, ideal for larger calibers like .444 Marlin

Ensures smooth, friction-free reloading

## Easy Installation

Installation in 10-15 minutes

Ready to use immediately, no adjustments needed

No sharp edges, no sharpening required

## Key Benefits

Smooth, reliable reloading—even in fast-paced shooting

Maximum comfort thanks to optimized geometry

SASS-certified – competition legal

Noticeably lighter and more durable than standard loading gates

# RPP Flyweight Loading Gate Safety Instructions

## Introduction

Thank you for choosing the RPP Flyweight Loading Gate for your Marlin 336 rifle. This product is designed to enhance your shooting experience by providing a lightweight and durable loading solution. Please read this safety instruction guide carefully to ensure safe and effective use of the loading gate.

## General Safety Guidelines

- Always ensure that your firearm is unloaded before installing or using the loading gate.
- Use the loading gate only with compatible Marlin 336 models and specified calibers.
- Keep the loading gate and all firearm accessories out of reach of children and unauthorized users.
- Regularly inspect the loading gate for signs of wear or damage before each use.
- If you notice any issues, discontinue use immediately and consult a qualified gunsmith.

## Specific Safety Precautions for Use

- Ensure that you are in a safe environment when loading your firearm.
- Use the loading gate in accordance with the manufacturer's instructions to avoid potential hazards.
- Do not attempt to modify the loading gate or use it in a manner not intended by the manufacturer.
- Always wear appropriate eye protection when using firearms.
- Be aware of your surroundings and ensure that no one is in the vicinity of the firearm when loading.

## Instructions for Installation and Usage

### 1. Installation

- Ensure that your firearm is unloaded.
- Remove the old loading gate if applicable.
- Align the new RPP Flyweight Loading Gate with the opening on the Marlin 336.
- Press firmly to secure the loading gate in place. No additional fitting should be required.
- Verify that the loading gate operates smoothly before use.

### 2. Usage

- Load cartridges into the loading gate according to the specifications for your rifle.
- Apply only the necessary force to load cartridges, as the RPP Flyweight Loading Gate requires up to 70% less force than standard gates.
- Ensure that cartridges are seated properly and that the loading gate functions without obstruction.

## Disposal Instructions

- Dispose of the loading gate in accordance with local regulations.
- If the loading gate is damaged beyond repair, contact your local waste management facility for proper disposal methods.
- Do not dispose of the loading gate in regular household waste.

## Contact Information for Further Support

For safety inquiries or additional support related to the RPP Flyweight Loading Gate, please refer to the manufacturer's contact details provided with your product.

By following these guidelines, you can ensure a safe and enjoyable experience with your RPP Flyweight Loading

Gate. Always prioritize safety and responsible firearm handling.
