RPP Flyweight Loading Gate for Marlin 336 - 7075-T6 Aluminum

Compatibility: Designed for all Marlin 336 models chambered in .30-30 Win, .35 Rem, .444 Marlin, .338, and .308.

Material and Construction: CNC-machined from premium 7075-T6 aluminum, the strongest aluminum alloy available. Hard-anodized for exceptional durability and a surface hardness that surpasses hardened steel.

Weight and Ergonomics: Up to 70% lighter than a standard loading gate for smooth, effortless loading. Requires only 0.7 kg (1.5 lbs) of force, compared to the typical 2+ kg on factory gates. Optimized geometry provides more room for cartridges, making it ideal for larger calibers such as .444 Marlin.

Easy Installation: Ready to use with no fitting or adjustments required.

Installation time: 10-15 minutes.

Advantages:

No sharpening, no sharp edges

Smooth and reliable reloading

SASS-certified for competition use

Safety Instruction Guide for RPP Flyweight Loading Gate for Marlin 336

Introduction

Thank you for choosing the RPP Flyweight Loading Gate for your Marlin 336 rifle. This loading gate is designed to enhance your reloading experience while ensuring safety and reliability. Please read this safety instruction guide carefully to understand how to use and maintain your product safely.

General Safety Guidelines

- Always ensure that your firearm is unloaded before installing or handling the loading gate.
- Keep the loading gate and all firearm accessories out of reach of children and unauthorized users.
- Inspect the loading gate regularly for signs of wear or damage. Do not use if damaged.
- Follow all local laws and regulations regarding firearm accessories and usage.
- If unsure about any aspect of the loading gate or its installation, consult a qualified gunsmith.

Specific Safety Precautions for Use

- Ensure that the loading gate is compatible with your specific Marlin 336 model.
- Use only the recommended ammunition types: .3030 Win, .35 Rem, .444 Marlin, .338, and .308.
- Do not attempt to modify the loading gate or firearm in any way that may compromise safety.
- Always wear appropriate eye protection when handling firearms and ammunition.
- Be aware of your surroundings and ensure a safe environment when reloading.

Instructions for Installation and Usage

Installation

1. **Preparation:** Ensure your rifle is completely unloaded and safe to handle.
2. **Remove Old Loading Gate:** If applicable, carefully remove the existing loading gate from your Marlin 336.
3. **Install New Loading Gate:**
 - Align the RPP Flyweight Loading Gate with the loading port of your rifle.
 - Gently press into place until it is securely fitted.
4. **Check Functionality:** Test the loading gate to ensure it operates smoothly without obstruction.

Usage

- To load cartridges, simply push them through the loading gate into the magazine.
- The optimized design allows for easier loading of larger calibers.
- Ensure that you apply only the recommended force of 0.7 kg (1.5 lbs) for loading.

Disposal Instructions

- Dispose of the loading gate responsibly at a designated recycling facility or follow local regulations for disposal.
- Do not throw the loading gate in regular household waste.

Contact Information for Further Support

For any inquiries regarding the safety and operation of the RPP Flyweight Loading Gate, please consult your local dealer or a qualified gunsmith for assistance.

Conclusion

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your RPP Flyweight Loading Gate for Marlin 336. Always prioritize safety when handling firearms and accessories. Thank you for your attention to these important guidelines.
