

Smith & Wesson 44 Mag Comet Brake Reduces Recoil - Smith and Wesson Stealth Hunter 1854 44 Mag Comet Muzzle Brake

[Rifle Parts](#) > [Muzzle Devices](#) > [Compensators & Muzzle Brakes](#)

The "Comet Brake" is designed to be a slim, flush fit and aggressive rifle muzzle brake that works especially well to reduce felt recoil.

Each brake is made to match the exact OD (outer diameter) and the thread pitch (tpi) of the rifle make/model that's listed.

Your rifle **MUST** be threaded to use this brake.

If you plan to get your rifle threaded by a gunsmith, provide them with the exact specs listed.

Smith & Wesson 44 Mag Comet Brake Safety Instruction Guide

Introduction

Thank you for choosing the Smith & Wesson 44 Mag Comet Brake. This product is designed to reduce felt recoil and enhance your shooting experience. Please read this safety instruction guide carefully to ensure safe and effective use of the Comet Brake.

General Safety Guidelines

- Always treat firearms and related accessories with respect and caution.
- Ensure that the firearm is unloaded before installing or handling the Comet Brake.
- Follow all local laws and regulations regarding firearm modifications and usage.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the Comet Brake for any signs of damage or wear before each use.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure your rifle is threaded to accept the Comet Brake. Attempting to use the brake on an unthreaded rifle can result in injury or damage.
- Use only the recommended blue Loctite for installation to secure the brake properly.
- Do not exceed the recommended torque when installing the brake to avoid damaging the threads.
- Always wear appropriate eye and ear protection when shooting.
- Be aware of your surroundings and ensure a safe shooting environment.
- Do not use the Comet Brake with ammunition that exceeds the specifications for your firearm.

Instructions for Installation and Usage

1. Preparation:

- Ensure your rifle is unloaded and in a safe condition.
- Gather the required tools: a wrench for handtightening and blue Loctite.

2. Installation:

- Align the Comet Brake with the threaded end of your rifle barrel.
- Handtighten the brake onto the barrel until snug.
- Apply a small amount of blue Loctite to the threads for added security.
- Ensure the brake is positioned correctly, with 1 inch hanging past the barrel when installed.
- Allow the Loctite to cure as per the manufacturer's instructions before using the rifle.

3. Usage:

- After installation, test the rifle in a safe environment to ensure proper function.
- Monitor the performance of the Comet Brake and check for any signs of loosening or damage after each use.

Disposal Instructions

- Dispose of the Comet Brake in accordance with local regulations.
- If the product is damaged or no longer usable, do not attempt to repair it. Dispose of it responsibly to

prevent environmental harm.

Contact Information for Further Support

For any inquiries regarding the Smith & Wesson 44 Mag Comet Brake, please refer to the product packaging for contact information or visit the manufacturer's website.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities. Enjoy your shooting experience with the Smith & Wesson 44 Mag Comet Brake!
