Full Length Die with Interchangeable Neck Sizing Ring

The FL die is used to size the cartridge case on full length. In this version, the case neck is not sized directly inside the die body but by an interchangeable neck sizing ring (bushing). By changing bushing, the amount of neck sizing can be varied.

It consists of the solid die body, the interchangeable neck sizing ring (bushing), and the spindle with expander and decapping pin. The die body is hardened, and the interior profile is mirror-polished. The precision-ground seat for the neck sizing ring ensures an accurate fit. The HK ring is made of tool steel, hardened and finely ground. The expander is also made of tool steel, hardened and finely ground.

The complete spindle can be removed upwards, so no readjustment is necessary when reinstalling.

Full-length sizing of the cartridge case from base to shoulder takes place when the case is pushed into the die. The case neck is sized on the outside by the installed bushing. Neck sizing from the inside takes place as the case is withdrawn from the die. This restores the case's loadability and achieves a consistent and secure bullet seating.

The correct position of the die in the press is set with the lock nut. All relevant components, including bushings in different sizes, have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 7/8 Full Length Die with Bushing 308 Winchester Safety Instruction Guide

Introduction

Thank you for choosing the Full Length Die 7/8 Full Length Die with Bushing for 308 Winchester. This guide provides essential safety instructions, usage guidelines, and disposal information to ensure safe and effective use of the product. Please read this guide carefully before using the die.

General Safety Guidelines

- Ensure that the die is used only for its intended purpose, which is to size cartridge cases.
- Always handle the die with care to prevent injury.
- Keep the die and all components out of reach of children and vulnerable individuals.
- Regularly inspect the die for signs of wear or damage before each use.
- Follow all local laws and regulations regarding the use and handling of reloading equipment.
- In case of an accident or malfunction, report it to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Identification:**

- The die can create sharp edges that may cause cuts.
- Improper use may lead to misfired cartridges, which can be dangerous.

- **Avoiding Hazards:**

- Always wear safety glasses when operating the die to protect your eyes from debris.
- Use gloves to protect your hands from sharp edges and hot components.
- Ensure that the press is securely mounted before using the die.
- Do not exceed the recommended specifications for cartridge reloading.
- Keep the work area clean and organized to prevent accidents.

- **AgeSpecific Warnings:**

- This product is intended for adult users only. Keep out of reach of children.
- Ensure that inexperienced users are supervised by knowledgeable adults when using the die.

Instructions for Installation and Usage

- **Installation:**

1. Ensure that the press is securely mounted on a stable surface.
2. Insert the die into the press and tighten it using the lock nut to secure its position.
3. Install the appropriate neck sizing bushing according to your requirements.

- **Usage:**

1. Place the cartridge case into the die and ensure it is aligned properly.
2. Pull the handle of the press to push the case into the die for fulllength sizing.
3. Withdraw the case carefully to allow for neck sizing from the inside.
4. Inspect the sized case for consistency and quality before proceeding with reloading.

- **PostUse Care:**

- Clean the die after each use to remove any debris or residue.
- Store the die and all components in a safe, dry place to prevent damage.

Disposal Instructions

- Dispose of the die and any broken or worn components in accordance with local regulations.
- Do not dispose of the die in regular household waste. Check for recycling programs or hazardous waste disposal options in your area.
- Ensure that all sharp edges are covered or wrapped to prevent injury during disposal.

Contact Information for Further Support

For any questions or concerns regarding the safety and usage of the Full Length Die 7/8 Full Length Die with Bushing, please refer to the product manual or contact your retailer for assistance.

Stay safe and enjoy your reloading experience!
