# Safety Instruction Guide for MDT Accessories

## Bottom Metal Pillar Kit Remington 700 SA

### Introduction

Thank you for purchasing the MDT Accessories Bottom Metal Pillar Kit for the Remington 700 Short Action. This guide provides essential safety information and instructions to ensure the safe use and installation of this product. Please read this guide carefully before use.

### General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always follow the manufacturer's instructions for installation and usage.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for signs of wear or damage.
- If you encounter any issues or have concerns about safety, discontinue use immediately and seek assistance.

### Specific Safety Precautions for Use

- Use the product only with compatible MDT Bottom Metals.
- Ensure that the pillars are installed securely to avoid any movement during use.
- Do not exceed the recommended torque specifications when securing the barreled action.
- Avoid using the product in wet or damp conditions to prevent corrosion.
- Handle all tools used for installation with care to avoid personal injury.

### Instructions for Installation and Usage

#### 1. Preparation:

- Gather all necessary tools and components before starting the installation.
- Ensure that you have a clean and welllit workspace.

#### 2. Installation Steps:

- Remove the existing bottom metal from your Remington 700 Short Action.
- Clean the area where the new pillars will be installed to ensure a proper fit.
- Align the pillars with the mounting holes of the bottom metal.
- Insert the pillars into the designated holes, ensuring they are seated properly.
- Secure the bottom metal using the appropriate screws and tools, following the manufacturer's torque specifications.
- Doublecheck that the pillars are firmly in place and that there is no movement.

#### 3. Usage:

- Once installed, regularly check the stability of the pillars and the bottom metal.
- Ensure that the barreled action is properly torqued against the pillars for optimal performance.

### Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in household waste.
- If the product is damaged or no longer usable, consider recycling materials where possible.

## **Contact Information for Further Support**

For any inquiries or support regarding the MDT Accessories Bottom Metal Pillar Kit, please refer to the manufacturer's website or contact your local retailer.

By following these safety instructions, you can ensure the safe and effective use of your MDT Accessories Bottom Metal Pillar Kit. Thank you for your attention to safety, and enjoy your product!
