

# 3-12x50 Klassik - 3-12x50 Klassik LM L3 1cm cw Klassik CT / Klassik CT

[Optics & Mounting](#) > [Scopes](#) > [Rifle Scopes](#)

The 3-12×50 Klassik from Schmidt and Bender is a high-end hunting riflescope engineered for both versatile mid-range engagement and strong low-light performance. With its magnification range of 3–12× and a substantial 50 mm objective lens, it offers a perfect blend of flexibility and light-gathering power for stalking, stand hunts and terrain where clarity is crucial.

It features a first focal plane (FFP) illuminated reticle, ensuring consistent hold points at every magnification level. The eye relief of approximately 90 mm enables comfortable mounting and quick sight alignment across differing shooting positions.

With an exit pupil range of roughly 14.0–4.2 mm, this scope maintains excellent brightness even in challenging light. A field of view of about 11.1–3.4 m at 100 m ensures generous situational awareness at low magnification and finer target definition at higher zoom levels.

Constructed on a durable 30 mm main tube, it delivers a low-mount profile and rugged build quality, with precise adjustments featuring a click value of 1 cm at 100 m for both elevation and windage.

Key Specifications:

Magnification: 3–12×  
Objective Lens Diameter: 50 mm  
Reticle: First Focal Plane, illuminated  
Eye Relief: approx. 90 mm  
Field of View: approx. 11.1–3.4 m @100 m  
Exit Pupil: approx. 14.0–4.2 mm  
Tube Diameter: 30 mm  
Click Value: 1 cm @100 m

Crafted in Germany with premium optics and mechanical precision, the 3-12×50 Klassik is designed for hunters who demand clarity, adaptability and robust reliability from dawn through dusk.

# Safety Instruction Guide for the 3-12x50 Klassik Riflescope

## Introduction

Thank you for choosing the 3-12x50 Klassik Riflescope from Schmidt and Bender. This guide provides essential safety instructions and guidelines to ensure safe and effective use of your riflescope. Please read this document carefully before using the product.

## General Safety Guidelines

- Ensure that all users of the riflescope are familiar with its operation and safety features.
- Always handle firearms and associated equipment responsibly and in accordance with local laws and regulations.
- Keep the riflescope and all firearms out of reach of children and unauthorized users.
- Regularly inspect the riflescope for any signs of damage or wear. If any issues are detected, do not use the product until it has been repaired or replaced.
- Use the riflescope only for its intended purpose: hunting and shooting sports.
- Be aware of your surroundings when using the riflescope, and ensure that you have a clear line of sight to avoid accidents.
- Follow all safety instructions provided by the manufacturer of the firearm you are using in conjunction with this riflescope.

## Specific Safety Precautions for Use

- Avoid looking directly at the sun or bright light sources through the riflescope, as this can cause permanent eye damage.
- Do not attempt to disassemble or modify the riflescope; doing so may void the warranty and compromise safety.
- Always ensure that the riflescope is securely mounted to your firearm before use.
- Check the reticle and adjustments before each use to ensure proper functionality.
- Use appropriate eye protection when using firearms equipped with the riflescope to protect against potential recoil and debris.
- Maintain a safe shooting distance and be aware of the ballistic trajectory of your shots.

## Instructions for Installation and Usage

### Installation

#### 1. Mounting the Riflescope:

- Choose a suitable mounting base compatible with your firearm.
- Securely attach the mounting rings to the base, ensuring they are tightened according to the manufacturer's specifications.
- Carefully place the riflescope into the rings and adjust its position for optimal eye relief (approx. 90 mm).
- Tighten the rings to secure the riflescope in place, ensuring it is level and aligned.

#### 2. Adjusting the Reticle:

- Use the windage and elevation turrets to adjust the reticle according to your shooting needs.
- Each click corresponds to a change of 1 cm at 100 m.

## Usage

### 1. Before Shooting:

- Ensure the riflescope is clean and free from obstructions.
- Check the field of view (approx. 11.1-3.4 m @ 100 m) to ensure you have a clear target.

### 2. During Shooting:

- Position yourself comfortably and ensure a stable shooting stance.
- Align your eye with the exit pupil (approx. 14.0-4.2 mm) for optimal viewing.
- Maintain focus on the target and adjust your aim as necessary.

### 3. After Shooting:

- Securely store the riflescope and firearm in a safe location.
- Clean the riflescope according to the manufacturer's instructions to maintain clarity and performance.

## Disposal Instructions

- Dispose of the riflescope in accordance with local regulations regarding electronic waste and nonbiodegradable materials.
- Do not dispose of the product in household waste; instead, take it to a designated recycling facility or follow any specific disposal guidelines provided by local authorities.

## Contact Information for Further Support

For any safety inquiries or product support, please refer to the manufacturer's website or contact their customer service department directly. Ensure you have the product details ready for a more efficient response.

Thank you for taking the time to read this safety instruction guide. Your safety and the safety of others is our top priority. Enjoy using your 3-12x50 Klassik Riflescope responsibly and safely.
