

# 1-8x24 PM II ShortDot Dual CC - 1-8x24 PM II ShortDot Dual CC MDR-T6 1cm ccw ST MTC LT / ST ZC LT RAL 8000

[Optics & Mounting](#) > [Scopes](#) > [Rifle Scopes](#)

The 1-8x24 PM II ShortDot Dual CC is a premium multipurpose riflescope designed to bridge ultra-fast close-quarters engagement and precision mid-range shooting. With a full 1-8x magnification range, it integrates both a high-visibility red-dot sight for rapid acquisition and a tactical reticle for comprehensive zoom usage.

## Key Features and Highlights

Dual focal plane system: Combines a daylight-visible red dot in the second focal plane (SFP) with a tactical reticle in the first focal plane (FFP) for consistent hold-points across the zoom range.

Patented Close-Combat Mode (CC-Mode): When set at 1x magnification the parallax is fixed at approx. 7 m for true parallax-free shooting at close range; above ~1.1x it transitions to ~100 m enabling accurate mid-range engagement.

Large exit pupil and generous eye relief: Optimized for fast, intuitive use in dynamic or static shooting scenarios—providing comfortable alignment whether standing, kneeling or prone.

Compact and rugged design: With a 30 mm main tube diameter, length of approx. 293 mm and weight of approx. 635-650 g depending on configuration, this scope is built to handle extreme conditions—including low temperatures and high recoil/shock.

High optical quality: Field of view spans roughly 35.3-4.9 m at 100 m across the zoom range, offering wide situational awareness at low magnification and refined detail at higher zoom.

Precision mechanics: Turrets are ultra-low profile, lockable, extremely durable and designed for exacting use in tactical or competition environments.

## Typical Specifications

Magnification: 1-8x

Focal Plane: Dual (1st and 2nd)

Parallax: CC-Mode ~7 m; Standard Mode ~100 m (optional up to ~300 m)

Field of View: ~35.3-4.9 m @100 m

Exit Pupil: ~9.8-3.0 mm

Eye Relief: ~90 mm

Tube Diameter: 30 mm

Length: ~293 mm

Weight: ~635-650 g

# Safety Instruction Guide for the 1-8x24 PM II ShortDot Dual CC Riflescope

## Introduction

Thank you for choosing the 1-8x24 PM II ShortDot Dual CC Riflescope. This guide provides essential safety instructions, usage guidelines, and disposal information to ensure the safe and effective use of your riflescope. Please read this guide carefully before using the product.

## General Safety Guidelines

- **Product Safety:** This riflescope is designed for safe use in various shooting scenarios. Ensure you are familiar with its operation to avoid accidents.
- **Enhanced Recalls:** In the event of a safety issue, recall notices will be issued. Please stay informed about any recalls related to this product.
- **Online Shopping Protections:** If purchased online, this product is covered by the same safety requirements as those bought in physical stores.
- **Special Consumer Focus:** Extra precautions should be taken when this product is used by or around vulnerable groups, such as children.
- **EU Contact Point:** For safety inquiries, please refer to the designated EU contact point associated with this product.
- **Rapid Alerts:** Stay updated on any safety alerts regarding this product through the EU's Safety Gate system.

## Specific Safety Precautions for Use

- **Avoid Eye Injury:** Always ensure that your eye is at a safe distance from the riflescope when using it. The eye relief is approximately 90 mm.
- **Check for Damage:** Before use, inspect the riflescope for any signs of damage or defects. Do not use if damaged.
- **Proper Mounting:** Ensure the riflescope is properly mounted on your firearm to prevent accidents during use.
- **Secure Handling:** Always handle the riflescope with care, especially in adverse conditions. Avoid dropping or exposing it to extreme impacts.
- **Follow Local Laws:** Ensure compliance with local laws and regulations regarding the use of firearms and optics.
- **Child Safety:** Keep this product out of reach of children and ensure they are supervised when in the vicinity of firearms.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the firearm is unloaded before attaching the riflescope.
- Use appropriate mounting rings or bases as per the manufacturer's guidelines.
- Securely tighten all mounting screws to prevent movement during use.
- Confirm that the riflescope is aligned with the barrel for accurate shooting.

### 2. Usage:

- Adjust the magnification using the zoom ring, which ranges from 1x to 8x.
- Select the appropriate mode (CCMode or Standard Mode) based on your shooting distance.
- Always check the parallax setting before engaging in shooting activities.

- Use the tactical reticle for precision aiming, especially at midrange distances.
- Maintain a proper stance and grip while aiming to ensure stability and accuracy.

### 3. **Maintenance:**

- Clean the lenses with a soft, lintfree cloth to avoid scratches.
- Store the riflescope in a dry, cool place to prevent moisture damage.
- Regularly check the mounting screws and adjustments for any loosening.

## **Disposal Instructions**

- **Environmental Considerations:** Dispose of the riflescope in accordance with local regulations. Do not dispose of it in regular household waste.
- **Recycling:** If possible, recycle the product's components responsibly to minimize environmental impact.

## **Contact Information for Further Support**

For any questions or concerns regarding the use or safety of the 1-8x24 PM II ShortDot Dual CC Riflescope, please refer to the designated EU contact point or the retailer from whom you purchased the product.

Thank you for your attention to these safety instructions. Enjoy your shooting experience with the 1-8x24 PM II ShortDot Dual CC Riflescope!
