The 3-20×50 PM II Ultra Short from Schmidt and Bender is a compact yet powerful riflescope engineered for high-performance engagements across medium to long distances. With its 3–20× magnification range and a 50 mm objective lens, it offers outstanding optical clarity and flexibility in a streamlined form factor.

Constructed around a robust 34 mm main tube, it maintains a length of approximately 340 mm and weighs around 900 g, striking an excellent balance between size and performance—ideal for mounting on compact platforms without compromising optics.

Its field of view spans roughly 13.0–2.1 m at 100 m, providing broad situational awareness at lower magnification and refined detail at the high end. The exit pupil ranges around 11.4–2.5 mm, and the eye relief is approximately 90 mm, supporting comfortable shooting in varied positions while maintaining strong light-gathering even as light fades.

Advanced features include first focal plane (FFP) illuminated reticle options, side parallax adjustment (from approx. 25 m to infinity), and a low-profile elevation turret optimized for tactical precision.

# Safety Instruction Guide for the 3-20x50 PM II Ultra Short Riflescope

## Introduction

Thank you for choosing the 3-20x50 PM II Ultra Short Riflescope from Schmidt and Bender. This guide provides important safety instructions and guidelines to ensure the safe use and handling of your riflescope. Please read this document carefully before use.

## General Safety Guidelines

- Ensure the riflescope is used in accordance with all relevant laws and regulations in your area.
- Always handle the riflescope with care to avoid damage.
- Keep the riflescope out of reach of children and unauthorized users.
- Regularly inspect the riflescope for any signs of wear or damage.
- If the riflescope has been dropped or damaged, do not use it until it has been inspected by a qualified technician.

## Specific Safety Precautions for Use

- Always ensure that the riflescope is securely mounted to your firearm before use.
- Use the riflescope only for its intended purpose—target shooting, hunting, or other lawful activities.
- Avoid looking directly at the sun through the riflescope, as this may cause permanent eye damage.
- Do not attempt to disassemble or modify the riflescope; this may void the warranty and pose safety risks.
- Be aware of your surroundings and ensure a clear line of sight before taking any shots.
- Use appropriate eye protection when using the riflescope.

## Instructions for Installation and Usage

### 1. Installation:

- Select a suitable mounting location on your firearm that provides a stable platform.
- Use the provided mounting rings to securely attach the riflescope to the firearm's rail.
- Ensure that the riflescope is level and aligned with the barrel.

### 2. Usage:

- Adjust the magnification to your desired level by rotating the magnification ring.
- Use the parallax adjustment feature to ensure a clear image at your shooting distance.
- Adjust the elevation and windage turrets to zero your riflescope according to your shooting needs.
- Always check your eye relief to ensure comfortable viewing and to prevent injury.

## Disposal Instructions

- Dispose of the riflescope and any associated packaging materials in accordance with local regulations.
- Do not dispose of the riflescope in household waste. Check for local recycling programs or hazardous waste disposal options.

## Contact Information for Further Support

For any safety inquiries or further assistance regarding the 3-20x50 PM II Ultra Short Riflescope, please refer to the manufacturer's contact details provided in the product packaging.

## **Conclusion**

Following these safety guidelines will help ensure a safe and enjoyable experience with your 3-20x50 PM II Ultra Short Riflescope. Always prioritize safety and responsible usage to protect yourself and others. Thank you for your attention and enjoy your shooting experience!
