

3-20x50 PM II Ultra Short - 3-20x50 PM II Ultra Short LP MSR2 1cm ccw DT27 MTC LT / ST ZC CT

[Optics & Mounting](#) > [Scopes](#) > [Rifle Scopes](#)

The 3-20×50 PM II Ultra Short from Schmidt and Bender is a compact yet powerful riflescope engineered for high-performance engagements across medium to long distances. With its 3–20× magnification range and a 50 mm objective lens, it offers outstanding optical clarity and flexibility in a streamlined form factor.

Constructed around a robust 34 mm main tube, it maintains a length of approximately 340 mm and weighs around 900 g, striking an excellent balance between size and performance—ideal for mounting on compact platforms without compromising optics.

Its field of view spans roughly 13.0–2.1 m at 100 m, providing broad situational awareness at lower magnification and refined detail at the high end. The exit pupil ranges around 11.4–2.5 mm, and the eye relief is approximately 90 mm, supporting comfortable shooting in varied positions while maintaining strong light-gathering even as light fades.

Advanced features include first focal plane (FFP) illuminated reticle options, side parallax adjustment (from approx. 25 m to infinity), and a low-profile elevation turret optimized for tactical precision.

Key Specifications:

Magnification: 3–20×
Objective Lens Diameter: 50 mm
Main Tube Diameter: 34 mm
Field of View: approx. 13.0–2.1 m @100 m
Exit Pupil: approx. 11.4–2.5 mm
Eye Relief: approx. 90 mm
Length: approx. 340 mm
Weight: approx. 900 g

With precision optics, compact build, and rugged mechanical design, the 3-20×50 PM II Ultra Short is built for serious shooters who demand premium performance in a versatile package.

Attributes

Safety Instruction Guide for the 3-20x50 PM II Ultra Short Riflescope

Introduction

Thank you for choosing the 3-20x50 PM II Ultra Short Riflescope by Schmidt and Bender. This guide provides essential safety instructions to ensure the safe and effective use of your riflescope. Please read this guide carefully before installation and usage.

General Safety Guidelines

To ensure your safety and the safety of others, please follow these guidelines:

- Always handle the riflescope with care to avoid damage.
- Use the riflescope only for its intended purpose—aiming and shooting at targets.
- Keep the riflescope out of reach of children and unauthorized users.
- Regularly inspect the riflescope for any signs of damage or wear.
- Avoid exposing the riflescope to extreme temperatures, moisture, or corrosive substances.
- Use appropriate protective eyewear while using the riflescope.
- Store the riflescope in a secure and dry location when not in use.

Specific Safety Precautions for Use

When using the 3-20x50 PM II Ultra Short Riflescope, please observe the following precautions:

- Ensure that the riflescope is mounted securely to the firearm before use.
- Check the alignment of the reticle and adjust as necessary to ensure accurate aiming.
- Be aware of your surroundings and ensure a clear line of sight before taking a shot.
- Do not use the riflescope if it is damaged or malfunctioning.
- Avoid using the riflescope during adverse weather conditions that may impair visibility.
- Be cautious of recoil and ensure a firm grip on the firearm while aiming.

Instructions for Installation and Usage

Follow these steps for proper installation and usage of your riflescope:

Installation

1. **Select a Mounting Platform:** Choose a compatible firearm with a suitable mounting system for the 34 mm main tube.
2. **Secure the Mount:** Follow the manufacturer's instructions to securely attach the mounting rings to the firearm.
3. **Attach the Riflescope:** Carefully place the riflescope into the mounting rings and tighten them according to the manufacturer's specifications.
4. **Level the Reticle:** Adjust the riflescope so that the reticle is level when the firearm is held in a normal shooting position.
5. **Check Eye Relief:** Ensure that the eye relief is comfortable and allows for full view of the reticle without any obstruction.

Usage

1. **Adjusting Magnification:** Rotate the magnification ring to select your desired level of zoom (3x to 20x).
2. **Focusing the Reticle:** Use the side parallax adjustment to focus the reticle based on your shooting distance (from approx. 25 m to infinity).

3. **Using the Elevation Turret:** Adjust the elevation turret for precise aiming; ensure it is set to the desired elevation before shooting.
4. **Maintaining Situational Awareness:** Regularly scan your surroundings while using the riflescope to maintain awareness of potential hazards.

Disposal Instructions

When disposing of the 3-20x50 PM II Ultra Short Riflescope, please follow local regulations regarding electronic waste and hazardous materials.

- Remove batteries if applicable and dispose of them in accordance with local laws.
- Recycle the riflescope components whenever possible.
- Do not dispose of the riflescope in regular household waste.

Contact Information for Further Support

For any inquiries regarding safety or product support, please contact the manufacturer or your local dealer. Ensure you have your product details on hand for efficient assistance.

Thank you for your attention to these safety instructions. Your safety and the safety of others is paramount. Enjoy your shooting experience with the 3-20x50 PM II Ultra Short Riflescope.
