

Aluminum Handguard - Henry Aluminum Handguard

[Rifle Parts](#) > [Build Kits](#) > [Handguards & Rails](#)

The Chisel Machining Henry Aluminum Handguard is a premium, CNC-machined forearm made from solid 6061 billet aluminum, specifically designed for Henry Lever Gun rifles. It combines heavy-duty construction with modularity, offering a robust upgrade for both tactical and precision builds.

Key Features

CNC-Machined 6061 Billet Aluminum Crafted from a single block of aluminum for exceptional strength and durability.

Modular Insert Panels Includes four interchangeable panels: two textured M-LOK inserts and two solid textured panels, allowing customization to your needs.

Heavy-Duty and Rugged Design The handguard is built to withstand demanding use while remaining stable and rigid in all conditions.

Easy Installation Designed as a drop-in replacement for most Henry Model X rifles and similar models. Installation only requires standard hex tools.

Fitment Notes Does not fit Henry rifles with barrel bands — it is designed for lever-action models without that configuration.

Lightweight Yet Strong While robust, the aluminum construction keeps the weight manageable for enhanced handling.

Aluminum Handguard Safety Instruction Guide

Introduction

Thank you for choosing the Chisel Machining Henry Aluminum Handguard. This guide provides important safety information, installation instructions, and usage tips to ensure the safe and effective operation of your handguard. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the handguard is compatible with your Henry Lever Gun rifle model before installation.
- Always handle firearms with care and follow all safety protocols when installing or using the handguard.
- Inspect the handguard for any signs of damage or wear before use.
- Keep the handguard and all related accessories out of reach of children.
- Report any unsafe products or incidents to the relevant authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Only use the handguard with Henry Lever Gun rifles that do not have barrel bands.
- Do not exceed the manufacturer's recommended weight limits for accessories mounted on the handguard.
- Ensure that all panels are securely attached before using the rifle.
- Avoid exposing the handguard to extreme temperatures or corrosive environments that may affect its integrity.
- Regularly check the handguard for tightness and stability during use.

Instructions for Installation and Usage

1. Preparation

- Gather the necessary tools: standard hex tools.
- Ensure your work area is clean and free from distractions.

2. Installation Steps

- Remove the existing handguard from your Henry Lever Gun rifle, if applicable.
- Align the Chisel Machining Henry Aluminum Handguard with the mounting points on the rifle.
- Securely attach the handguard using the provided hardware and hex tools, ensuring all screws are tightened to the manufacturer's specifications.
- Install the modular insert panels as desired, choosing between the textured MLOK inserts and solid textured panels for customization.

3. PostInstallation Check

- Once installed, check the handguard for stability and ensure it is securely fastened.
- Test the rifle's functionality to ensure proper operation with the new handguard.

Disposal Instructions

- Dispose of any packaging materials in accordance with local recycling guidelines.
- If the handguard becomes damaged beyond repair, dispose of it in a manner that complies with local waste management regulations.

Contact Information for Further Support

For inquiries regarding safety or installation, please consult the manufacturer's website or contact their customer support directly.

Thank you for your attention to these safety guidelines. Enjoy your enhanced shooting experience with the Chisel Machining Henry Aluminum Handguard!
