

1-6×24 LPVO Rifle Scope SFP

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Mount Sets](#)

The Prussia Precision S6 1-6×24 LPVO is a versatile low power variable optic built for dynamic shooting, competition, and practical rifle setups. With a true 1× to 6× magnification range, it allows rapid, both-eyes-open engagement at close distance while offering the precision needed for confident shots at medium range.

The scope features a modern ballistic reticle positioned in the second focal plane (SFP), ensuring the reticle size remains constant throughout the entire magnification range. This provides a consistent sight picture and intuitive use whether operating at 1× speed or dialing up to 6× for precision work. Red or green illumination with five brightness levels allows optimal visibility in changing light conditions and is powered by a single CR2032 battery.

Built on a robust 30 mm tube, the optic offers a wide adjustment range of over 50 MIL, with precise and repeatable 1/5 MIL click adjustments. Locking turrets help secure your settings under recoil and during movement, ensuring reliability in demanding environments.

Constructed from durable 6061-T6 aircraft-grade aluminum, the S6 is engineered for real-world performance. It is shock resistant up to 750 G, nitrogen filled to eliminate internal fogging, and rated to IPX4 waterproof standards, making it suitable for use in adverse weather conditions.

With a 24 mm objective lens, generous eye relief, the scope maintains a compact profile while delivering clear, bright optics and stable performance on modern sporting and tactical rifles.

Attributes

- Name: [1-6×24 LPVO Rifle Scope SFP](#)
- Manufacturer: [PRUSSIA PRECISION](#)
- Product no.: EU2016232
- Mfr. No.: PP-1558-BLK
- Colour: Black
- Delivery weight: 1kg
- Shipping height: 100mm
- Shipping width: 100mm
- Shipping length: 100mm

Safety Instruction Guide for the 16×24 LPVO Rifle Scope SFP 1×20 Compact Red Dot 3 MOA QD Picatinny

Introduction

Thank you for choosing the Prussia Precision S6 16×24 LPVO Rifle Scope. This guide provides essential safety instructions to ensure the safe and effective use of your rifle scope. Please read this guide carefully before using the product to understand how to operate it safely and responsibly.

General Safety Guidelines

- Ensure that the rifle scope is used only by individuals who are trained and knowledgeable in firearm safety.
- Always treat every firearm as if it is loaded.
- Never point the firearm at anything you do not intend to shoot.
- Keep the firearm and scope out of reach of children and unauthorized users.
- Always wear appropriate eye protection when using firearms equipped with optics.
- Regularly inspect the scope for any signs of damage or wear before use.
- Follow all local laws and regulations regarding the use of firearms and optics.

Specific Safety Precautions for Use

- **Magnification Levels:** Be aware that the scope has a magnification range of 1× to 6×. Ensure you are familiar with the scope's settings before engaging in shooting activities.
- **Illumination Settings:** The scope features red and green illumination with five brightness levels. Adjust the illumination according to the lighting conditions to ensure optimal visibility.
- **Mounting and Stability:** Ensure the scope is securely mounted to the firearm. Check that all mounting hardware is tightened properly to prevent movement during use.
- **Environmental Conditions:** The scope is rated to IPX4 waterproof standards. Avoid exposing the scope to extreme weather conditions for prolonged periods.
- **Recoil Management:** The scope is designed to withstand recoil but ensure that it is properly secured to handle the firearm's recoil effectively.

Instructions for Installation and Usage

Installation

1. **Select a Suitable Mount:** Choose a compatible Picatinny mount for your firearm.
2. **Attach the Scope:** Align the scope with the mount and secure it using the provided mounting hardware. Ensure it is tightened to prevent movement.
3. **Check Alignment:** After mounting, visually check that the scope is aligned with the barrel of the firearm.

Usage

1. **Adjusting Magnification:** Rotate the magnification ring to select the desired power level (1× to 6×).
2. **Setting Illumination:** Press the illumination button to toggle between red and green settings. Adjust brightness according to your environment.
3. **Focusing the Reticle:** Adjust the eyepiece to achieve a clear reticle image. Ensure your eye relief is comfortable for optimal viewing.
4. **Zeroing the Scope:** Follow the manufacturer's instructions for zeroing the scope to ensure accurate targeting.

Disposal Instructions

- Dispose of the scope and its components in accordance with local regulations for electronic waste.
- Remove the battery before disposal and dispose of it according to local guidelines for battery disposal.

Contact Information for Further Support

For any inquiries or support regarding the safety and use of the Prussia Precision S6 16×24 LPVO Rifle Scope, please refer to the manufacturer's website or contact the authorized distributor in your region.

Conclusion

By following these safety instructions, you can ensure a safe and enjoyable experience with your Prussia Precision S6 16×24 LPVO Rifle Scope. Always prioritize safety and responsible usage to enhance your shooting experience. Thank you for your attention to these important guidelines.
