

AR-15 TRIGGERS (Pull weight is not adjustable) - AR15 SMALL PIN SKELETONIZED ****4.5lb****

[Rifle Parts](#) > [Triggers Parts](#) > [Triggers](#)

Self-contained module is ready to install in your small-pin AR and deliver an exceptionally smooth, crisp, creep-free single-stage trigger pull that feels more like a traditional bolt action than a combat rifle trigger. 100% drop-in—no gunsmithing, fitting, or adjusting required. All components are captive in the lightweight, aluminum alloy housing. Hammer is wire-EDM machined from S7 tool steel that combines hardness to resist wear with superior impact resistance to withstand heavy use without chipping or breaking. Other components are EDM cut from A2 tool steel, then heat treated to Rc 56-60 for long service life. Precision-ground engagement surfaces ensure superb reliability and a crisp, clean hammer release. Installs using your rifle's original hammer/trigger pins; proprietary design eliminates pin walkout.

AR15 Triggers Safety Instruction Guide

Introduction

Thank you for choosing the AR15 Triggers. This guide provides essential safety information and instructions for the proper installation and use of your trigger. Please read this guide carefully to ensure safe operation and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that you are familiar with the operation of your firearm before installing or using this product.
- Always treat your firearm as if it is loaded.
- Keep your firearm pointed in a safe direction at all times.
- Store your firearm and ammunition in a secure location, away from children and unauthorized users.
- Use only compatible firearms for this trigger. This product is designed specifically for smallpin AR15 configurations.
- Regularly inspect your trigger and firearm for any signs of wear or damage.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Only use this trigger if you are a competent shooter and have experience with firearms.
- Do not attempt to modify or adjust the trigger pull weight, as it is not adjustable and any modification may lead to unsafe conditions.
- Ensure that the trigger installation is performed in a clean and controlled environment to avoid contamination or damage to the trigger components.
- Always wear appropriate eye protection when handling firearms.
- If you experience any malfunctions or unusual behavior when using the trigger, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather necessary tools, including a punch tool for pin removal and installation.

2. Installation Steps

- Remove the original hammer and trigger pins from your AR15.
- Carefully remove the original trigger assembly from the lower receiver.
- Take the AR15 Trigger module and align it with the pin holes in the lower receiver.
- Insert the original hammer and trigger pins through the module and into the pin holes. Ensure that they are fully seated.
- Verify that the trigger is functioning properly by pulling the trigger while the firearm is still pointed in a safe direction.

3. Usage

- Familiarize yourself with the trigger pull before using the firearm in a live shooting situation.
- Practice dry firing in a safe environment to get accustomed to the feel of the trigger.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding electronic and metal waste.
- Do not dispose of the product in regular household waste.
