[Rifle Parts](#) > [Triggers Parts](#) > [Triggers](#)

The Timney AR15 Small Pin Solid Trigger delivers a trigger feel closer to that of a precision bolt-action rifle than a modern sporting rifle. Designed as a true drop-in unit, it offers a clean, crisp, and creep-free pull with no gunsmithing, fitting, or adjustments required.

All trigger components are fully enclosed in a lightweight yet rugged aluminum housing. The hammer is precision-machined from S7 tool steel for excellent impact resistance, while the remaining components are machined from A2 tool steel and heat-treated to ensure durability and long service life.
