Timney's engineers set out to create not only the ultimate AR- style trigger to the exacting specifications of some of the best multi-gun shooters in the world, but a trigger that can withstand a lifetime of competition. A self-contained, 100% drop-in, two-stage trigger ready to install for an exceptionally smooth, crisp, two-stage trigger pull. No gunsmithing, fitting, or adjusting required. The two-stage trigger's pull weight: 1st stage is 8 ounces, and the 2nd stage is 1.5 pounds for a total combined pull weight of 2 pounds, and both stages are non-adjustable. The trigger housing is constructed of military-grade, 6061 T6 alloy that is CNC machined using state-of-the-art equipment and is anodized for superior durability. The trigger shoe is also CNC machined, then heat treated, and black oxide coated for a corrosion-resistant finish. While the sear and disconnect are wire EDM-cut from A2 tool steel, the hammer is wire EDM-cut from S7 tool steel, and all three parts are heat treated and Teflon-nickel coated for lubricity and long-lasting dependable service. SPECIFICATIONS: COMPATIBLE WITH: Mil-Spec AR lowers PULL WEIGHT: First stage: 8 oz / Second stage: 1.5 lbs. Safety Instruction Guide for AR PRO 2 STAGE TRIGGER

Introduction

Thank you for choosing the AR PRO 2 STAGE TRIGGER. This guide provides essential safety instructions and guidelines to ensure the proper use and installation of your trigger. Please read this manual carefully before use to ensure your safety and the safety of others.

General Safety Guidelines

- Ensure that the trigger is installed by a qualified individual or gunsmith to prevent any potential hazards.
- Always treat firearms and associated components as if they are loaded.
- Keep the trigger and all firearm components out of reach of children and unauthorized users.
- Regularly check for any signs of wear or damage to the trigger and other firearm components.
- Follow all local laws and regulations regarding the use and modification of firearms.

Specific Safety Precautions for Use

- **Pull Weight Awareness:** The trigger has a 1st stage pull weight of 8 ounces and a 2nd stage pull weight of 1.5 pounds. Ensure that you are familiar with the trigger's characteristics before use.
- **NonAdjustable Stages:** Both stages of the trigger are nonadjustable. Do not attempt to modify the trigger pull weight.
- **Proper Handling:** Always handle the firearm with care, keeping your finger off the trigger until you are ready to shoot.
- **Inspection Before Use:** Inspect the trigger and firearm for any obstructions or malfunctions before each use.
- **Avoid Dry Firing:** Avoid dry firing the firearm unless it is specifically designed for that purpose.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is completely unloaded before beginning the installation.
- Remove the existing trigger assembly from the firearm according to the manufacturer's instructions.
- Carefully install the AR PRO 2 STAGE TRIGGER into the firearm's lower receiver.
- Ensure the trigger is seated correctly and all pins are properly aligned.
- Reassemble the firearm according to the manufacturer's instructions.

2. Usage:

- Familiarize yourself with the trigger's operation in a safe environment.
- Practice proper shooting techniques to ensure safe and effective use of the trigger.
- Regularly maintain and clean the trigger and firearm as per the manufacturer's recommendations.

Disposal Instructions

- Dispose of the trigger and any associated components in accordance with local regulations.
- Do not dispose of the trigger in regular household waste; check for local recycling or hazardous waste disposal options.
