

GLOCK TRIGGERS (Pull weight 3lb) - GLOCK GEN 5: 20, 21, 29, 30, 40 and 41

[Rifle Parts](#) > [Triggers Parts](#) > [Triggers](#)

The new Timney Alpha Competition Series is a drop-in match trigger for Glock pistols. Designed to combine a 3-pound (approx. 1,360 g) trigger pull with Glock's well-known reliability, this crisp-breaking trigger delivers an exceptionally clean feel with a smooth trigger stroke.

In true Timney tradition, the match trigger is a direct replacement that requires no additional parts and works with all other factory Glock components and springs. To ensure long-term reliability even without maintenance, the trigger bar and sear are coated with Teflon-Nickel (NP3), providing extremely low friction and excellent wear resistance. The trigger shoe is made from aluminum and features a red anodized safety.

In an independent test, the Alpha Competition Trigger fired 10,000 rounds without lubrication or cleaning—and without a single malfunction.

Attributes

GLOCK TRIGGERS Safety Instruction Guide

Introduction

Thank you for choosing the GLOCK TRIGGERS (Pull weight 3lb) for GLOCK GEN 5 models: 20, 21, 29, 30, 40, and 41. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your new trigger. Please read this document carefully to understand the product's features, safety precautions, and proper handling.

General Safety Guidelines

- Always treat every firearm as if it is loaded.
- Keep the firearm pointed in a safe direction at all times.
- Store the trigger and firearm in a secure location, out of reach of unauthorized users.
- Ensure that you are familiar with the operation of your Glock pistol before using the new trigger.
- Regularly inspect the trigger and firearm for any signs of wear or damage.
- Follow all local laws and regulations regarding firearm usage and modifications.

Specific Safety Precautions for Use

- Ensure that the trigger is installed correctly before use. Incorrect installation may lead to malfunction.
- Do not attempt to modify the trigger in any way. Unauthorized modifications can compromise safety and reliability.
- Use only factory Glock components and springs with the Timney Alpha Competition Series trigger.
- Always wear appropriate eye and ear protection when handling or firing the firearm.
- Keep your fingers off the trigger until you are ready to shoot.
- Be aware of your surroundings and ensure a clear shooting range before firing.

Instructions for Installation and Usage

1. Installation

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the slide from the Glock pistol according to the manufacturer's instructions.
- Remove the factory trigger and replace it with the Timney Alpha Competition trigger.
- Ensure that the trigger bar and sear are properly engaged.
- Reassemble the firearm and perform a function check to confirm proper operation.

2. Usage

- Familiarize yourself with the trigger pull weight and feel before engaging in live fire.
- Practice dry firing in a safe environment to become accustomed to the new trigger.
- When ready to fire, ensure you are in a safe and controlled environment.

Disposal Instructions

- Dispose of the trigger and any associated components in accordance with local regulations.
- If the trigger is damaged or no longer meets safety standards, do not attempt to use it. Contact your local waste management authority for safe disposal options.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the GLOCK TRIGGERS, please refer to the manufacturer's

official website or contact your local authorized dealer.

Conclusion

This safety instruction guide is intended to help you use the GLOCK TRIGGERS safely and effectively. By following these guidelines, you can ensure a positive experience while maintaining the highest safety standards. Thank you for your attention to these important safety measures.
