Safety Instruction Guide for SAVAGE TRIGGERS

Introduction

Thank you for choosing the SAVAGE TRIGGERS. This guide provides essential safety instructions and guidelines to ensure safe usage and installation of the product. Please read this document carefully before using the trigger to ensure compliance with safety standards and to enhance your experience.

General Safety Guidelines

- Always handle firearms and their components with care and respect.
- Ensure that the firearm is unloaded before installing or adjusting the trigger.
- Keep the trigger and all firearm components out of reach of children and unauthorized users.
- Use appropriate eye and ear protection when handling firearms.
- Familiarize yourself with the specific safety features of your firearm model.
- Never modify the trigger or firearm in any unauthorized manner.
- Regularly inspect the trigger and firearm for any signs of wear or damage.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure the pull weight is set between 1.5 lbs and 4 lbs according to your preference.
- Avoid using the trigger with Savage Model 93 rimfire rifles or AccuTrigger models, as it is not compatible.
- Do not attempt to adjust the trigger pull weight while the firearm is loaded.
- If you experience any malfunction or failure during use, cease operation immediately and seek professional assistance.
- Be aware of your environment and ensure a safe shooting area when using the firearm equipped with this trigger.

Instructions for Installation and Usage

Installation Instructions

1. Preparation:

- Ensure the firearm is completely unloaded.
- Gather necessary tools for installation (refer to your firearm's manual for specifics).

2. Removing the Old Trigger:

- Consult the firearm's manual for instructions on removing the existing trigger.
- Carefully detach any components that may obstruct the removal.

3. Installing the SAVAGE TRIGGERS:

- Align the new trigger with the mounting points.
- Secure the trigger in place using the appropriate screws and tools.
- Doublecheck that all components are tightened and secured.

4. Adjusting the Pull Weight:

- Set the initial pull weight to 3 lbs (1,362 g).
- Use the adjustment mechanism to modify the pull weight between 1.5 lbs (681 g) and 4 lbs (1,816 g) as desired.
- Test the trigger to ensure proper function.

5. Final Inspection:

- Conduct a thorough inspection of the installation.
- Ensure there are no loose components or obstructions.

Usage Instructions

- Always follow safe firearm handling practices.
- Regularly check the trigger's functionality before each use.
- Adjust the pull weight as needed, ensuring it remains within the specified range.
- Maintain awareness of your surroundings and ensure a safe shooting environment.

Disposal Instructions

- Dispose of the trigger and any associated components in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Contact local waste management authorities for guidance on proper disposal methods.
