

T7 System - T7-Mount short/34/H15,0/20MOA

With the ERATAC T7, Recknagel/ERATAC establishes a new benchmark in the field of modern scope mounts. The T7 combines a radically innovative design with cutting-edge technologies specifically engineered for demanding operations on contemporary precision and service weapons. The result is one of the lightest, most secure, and highly user-friendly block mounts available on the market.

At the core of the T7 are the newly developed ERA-Grip inlays. This technology, specifically designed for riflescopes, ensures an absolutely reliable and rock-solid clamping force—even when subjected to the extreme recoil generated by large calibers.

No scope gluing required: Eliminates the need for adhesives, preventing residue or damage to the tube.

Significantly lower tightening torques: High retention performance is achieved without over-stressing structural components.

Gentle clamping action: Utilizes a specialized "belt principle" that distributes pressure evenly across the main tube.

Thin-walled scope optimization: Provides an ideal and safe mounting solution even for highly sensitive, thin-walled center tubes.

Attributes

- Name: T7-Mount short/34/H15,0/20MOA
- Manufacturer: ERATAC
- Product no.: EU2018080
- Mfr. No.: T7014-2015
- Colour: Black
- Delivery weight: 1kg
- Shipping height: 100mm
- Shipping width: 100mm
- Shipping length: 100mm
- EAN/UPC: T7014-2015

Safety Instruction Guide for the T7 System T7Mount

Introduction

Thank you for choosing the T7 System T7Mount. This guide provides important safety instructions and usage information to ensure your product operates safely and effectively. Please read these instructions carefully before use.

General Safety Guidelines

- Ensure that the T7Mount is used only with compatible riflescopes and firearms.
- Regularly inspect the mount for any signs of wear or damage.
- Ensure that all components are securely tightened before use.
- Store the T7Mount in a dry and safe place when not in use.
- Follow all local laws and regulations regarding the use of firearms and accessories.
- Be aware of your surroundings when using firearms equipped with the T7Mount.

Specific Safety Precautions for Use

- **Clamping Force:** The ERAGrip inlays provide a secure clamping force. Ensure that the mount is properly installed to prevent slippage during use.
- **Recoil Management:** Be mindful of the recoil generated by large calibers. The T7Mount is designed to withstand high recoil, but improper use may lead to damage.
- **Avoid Adhesives:** No scope gluing is required. Do not apply adhesives to the mount or scope, as this may cause damage.
- **Tightening Torques:** Use the recommended torque settings when securing the mount to avoid oversteering components.
- **ThinWalled Tubes:** Ensure that your riflescope has a compatible design for optimal use with the T7Mount, especially if it has a thinwalled center tube.

Instructions for Installation and Usage

1. Installation:

- Clean the mounting area on the firearm to ensure a secure fit.
- Align the T7Mount with the mounting points on your firearm.
- Secure the mount using the provided screws. Ensure that the screws are tightened to the manufacturer's recommended torque specifications.
- Attach your riflescope to the mount, ensuring that it is aligned properly for optimal accuracy.

2. Usage:

- Before each use, inspect the mount to ensure all components are secure.
- When firing, maintain a firm grip on the firearm to manage recoil effectively.
- After use, clean the mount and scope to remove any debris or moisture.

Disposal Instructions

- Dispose of the T7Mount in accordance with local regulations for electronic and metal waste.
- Do not dispose of the product in regular household waste.
- Consider recycling options available in your area.

Contact Information for Further Support

For any safety inquiries or further support, please refer to the product packaging or visit the manufacturer's website for contact details.

Thank you for your attention to these safety instructions. Your safety and the safe operation of your T7 System T7Mount are our top priorities.
