

T7 System - T7 Mount extended/36/H22.0/20MOA

With the ERATAC T7, Recknagel/ERATAC establishes a new benchmark in the field of modern scope mounts. The T7 combines a radically innovative design with cutting-edge technologies specifically engineered for demanding operations on contemporary precision and service weapons. The result is one of the lightest, most secure, and highly user-friendly block mounts available on the market.

At the core of the T7 are the newly developed ERA-Grip inlays. This technology, specifically designed for riflescopes, ensures an absolutely reliable and rock-solid clamping force—even when subjected to the extreme recoil generated by large calibers.

No scope gluing required: Eliminates the need for adhesives, preventing residue or damage to the tube.

Significantly lower tightening torques: High retention performance is achieved without over-stressing structural components.

Gentle clamping action: Utilizes a specialized "belt principle" that distributes pressure evenly across the main tube.

Thin-walled scope optimization: Provides an ideal and safe mounting solution even for highly sensitive, thin-walled center tubes.

Attributes

- Name: T7 Mount extended/36/H22.0/20MOA
- Manufacturer: ERATAC
- Product no.: EU2018093
- Mfr. No.: T7026-2022
- Colour: Black
- Delivery weight: 1kg
- Shipping height: 100mm
- Shipping width: 100mm
- Shipping length: 100mm
- EAN/UPC: T7026-2022

Safety Instruction Guide for T7 System T7 Mount

Introduction

Thank you for choosing the T7 System T7 Mount. This guide provides important safety instructions and guidelines to ensure the safe use of this product. Please read this manual carefully before installation and use.

General Safety Guidelines

- Ensure safe handling and operation of the T7 Mount to avoid accidents.
- Be aware of potential hazards associated with mounting equipment, including improper installation and use.
- Regularly check the T7 Mount for any signs of wear or damage.
- Always follow the manufacturer's recommendations for use and maintenance.
- Keep the product out of reach of children and vulnerable individuals.

Specific Safety Precautions for Use

- Do not exceed the recommended tightening torques when installing the mount.
- Ensure that all components are securely fastened before use.
- Avoid using the mount with incompatible or damaged scopes.
- Always inspect the mount for any damage before each use.
- Use the T7 Mount only for its intended purpose, which is to securely mount riflescopes.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools for installation.
- Ensure the workspace is clean and welllit.

2. Installation Steps:

- Remove any existing mounts from your firearm if applicable.
- Place the T7 Mount on the firearm's rail, ensuring proper alignment.
- Insert the screws into the designated holes of the mount.
- Use a torque wrench to tighten the screws to the specified torque settings. Refer to the manufacturer's guidelines for exact torque values.

3. Scope Attachment:

- Place the riflescope into the mount.
- Adjust the scope position for optimal eye relief and alignment.
- Securely tighten the clamping mechanism using the provided tools.

4. Final Check:

- Once installed, doublecheck all screws and clamps to ensure they are adequately tightened.
- Perform a visual inspection of the mount and scope alignment.
- Conduct a test fire to ensure the mount holds the scope securely under recoil.

Disposal Instructions

- Dispose of the T7 Mount in accordance with local regulations.

- Do not dispose of the product in household waste.
- Consider recycling components where possible to minimize environmental impact.

Contact Information for Further Support

For any safety inquiries, product concerns, or support needs, please refer to the manufacturer's website or contact their customer service directly.

By adhering to these safety instructions, you can ensure the safe and effective use of the T7 System T7 Mount. Thank you for your attention to these important guidelines.
